**DETAILS OF DIRECT SHIPMENTS OF MACHINERY TO BE UNLOADED & RELOADED AT SHOW SITE.
THIS FORM AND RATES ARE FOR CRATED AND UNCRATED SKIDDED MACHINERY ONLY.**

MATERIAL HANDLING SERVICES

Rates include all labor and equipment required to unload machinery at show site, deliver to the designated booth and removal of it from the booth for reloading on to outbound carriers. Machinery will be spotted with 6" tolerance, one time, after removal from the truck, provided the following conditions are met:

1. The Exhibitor, or his representative, is present to supervise the spotting.
2. The area within the booth is clearly marked to indicate the machine's position.
3. There will be no rigging, bolting or unbolting, unskidding or attaching to other equipment during machinery delivery.
4. Certified weight tickets are required. Separate weight for Display Materials and Machinery Equipment is required. There are different rates for machinery equipment if properly identified on the bill of lading. If the weight is not separated and/or materials are not identified properly, the Display rate will prevail.
5. Must be delivered on Friday, March 8th per exhibitor move-in schedule for machinery rates.
