The leader in fashion and pendant chain is now your prime source for a wide range of products including tubing, solid and solder filled wire, flat stock, beads and chain in a variety of styles, fancy patterns and gauges in sterling silver, gold filled and karat gold.

James A. Murphy & Son, a division of National Chain Group, offers an extensive line of domestically made plain and fancy beads including tubes and textures in many shapes and sizes. All products are available in base metal, sterling silver, gold filled, and karat gold including white, yellow and rose gold.

With over 50 years of experience and product development, James A. Murphy can offer you the best pricing, delivery and quality as well as the ability to create special products specifically for your customer’s needs.

National Chain is the acknowledged industry leader in fashion and pendant chain with over 2,000 chain machines producing a wide variety in precious and semi precious metal. Our products are made in the U.S.A. and competitively priced for the global market. National Chain was the only company recognized by both “Modern Marvels” and “How It’s Made” programs to feature their products to a worldwide audience on both the Science Channel and the History Channel.

As a prime source manufacturer National Chain not only produces its own wire and flat stock but we offer this product to manufacturers that are in search of a high quality source who can provide them with excellent delivery and pricing. Visit our new website at www.natchain.com to see our catalog and take a tour of our manufacturing facility and view both videos from “Modern Marvels” and “How It’s Made” programs.
On behalf of everyone at MJSA, the elected officers and directors below would like to thank you for attending Expo New York.

Sunday, March 9

Presentation Area

10:30 a.m. to Noon

FASHION TRENDS 2014 AND BEYOND

Presenter: Barbara Raleigh, International Design Source Ltd.

What fashion trends will influence jewelry for 2014 and beyond? From capitalizing on Pantone’s color choices to the styles consumers are demanding, this seminar will guide you in positioning your lines for future success.

1 to 2:30 p.m.

“MADE IN USA” MADE SIMPLE

Presenters: Suzan Flamm, JVC; Mark Hanna, The Richline Group; Peggy Jo Donahue, MJSA

According to the Federal Trade Commission’s “Made in USA” advertising guidelines, what’s made in the United States doesn’t always qualify to be advertised as such. This instructive seminar will explain the laws and regulations controlling “Made in USA” statements, and also present MJSA’s submission to the FTC requesting changes in the “Made in USA” rules.

3:30 to 5 p.m.

FAIR TRADE & ETHICAL PRACTICES: WHAT YOU NEED TO KNOW

Panelists: Anna Bario, Bario-Neal; David Bouffard, Signet Jewelers; Suzan Flamm, JVC; Torry Hoover, Hoover & Strong

Moderator: Peggy Jo Donahue, MJSA

The gold sourcing requirements triggered by the Dodd-Frank Act have led to the adoption of responsible business practices by companies throughout the jewelry supply chain, and a surge of interest in fairly mined and fairly traded gems and metals. This panel will explain the common goal of jewelry companies both large and small: To reassure consumers that the industry is committed to responsible sourcing.

Monday, March 10

Presentation Area

Swarovski’s “Professor of Crystal” Seminars

Sponsored by Swarovski, this series of hands-on workshops will focus on techniques for creating crystal jewelry and accessories. Featuring Nick Regine, star of the “Professor of Crystal” educational series running on YouTube and in MJSA Journal, the workshops will run in the third-floor demonstration area. Seating is limited; pre-registration is required, and will be on a first-come, first-served basis. There is a $25 registration fee for each session.

10:30 a.m. to Noon

THE BASICS OF MAKING CRYSTAL JEWELRY

Explore myriad techniques in beading and jewelry making, learn the tools of the trade, and use them to create imaginative designs using Swarovski crystals. Topics include working with memory wire, the basics of stringing and crimping, and professional finishing techniques.

1 to 3 p.m.

THE BASICS OF SOLDERING CRYSTAL

With its high heat and potential to turn jewelry parts into glistening puddles, soldering poses challenges to the beginning jeweler. Learn the basics of the craft, and how to apply them to create professional-looking jewelry with Swarovski cupchain and stone set findings.

4 to 5:30 p.m.

WORKING WITH CERAMIC EPOXY CLAY

With its ability to be sculpted and its range of colors, ceramic epoxy clay opens a new world for jewelry design. Using Swarovski crystals and Ceralun two-part epoxy clay, learn professional tips and tricks for molding imaginative 3-D designs with creatively textured surfaces.
MJSA Journal Live

MJSA’s flagship monthly magazine will bring its resident authors and experts to the Expo show floor, where they’ll be available for face-to-face discussions about the latest developments in jewelry making and design. Bench and casting techniques, CAD/CAM and web technologies, inventory management and cost control—whatever technical and business insights you need, an expert will be there to share them. Note: A selection of related MJSA Journal articles will be available to attendees, free of charge.

Sunday, March 9

DEMO: JEWELRY MAKING 101 (AND BEYOND)
Led by custom jeweler and MC extraordinaire Joel McFadden, this year’s “Jewelry Making 101 (and Beyond)” program demonstrates best practices in stone setting, offering various (and sometimes innovative) approaches to one of the most basic tasks of jewelry making. Jewelry Making 101 is made possible through the support of the MJSA Education Foundation. Bench and tools sponsored by Stuller Inc.

Level One: Prong and Bezel Setting
11:30 a.m. to 1 p.m.
Presenters: Joel McFadden and Ian Goodchild

Level Two: Channel and Flush Setting
3:30 to 5 p.m.
Presenters: Joel McFadden and Ian Goodchild

FACE-TO-FACE WITH BENCH EXPERTS
Elizabeth Garvin: The Business Side of the Bench
10 a.m. to 2 p.m.
Renowned for well-crafted jewelry influenced by architectural and industrial design, Elizabeth Garvin was also a finalist in the first “Future of Design” Business Incubator Contest for Jewelry Designers.

Lee Krombholz: Custom at the Bench
2 to 6 p.m.
The third-generation owner of Cincinnati-based Krombholz Jewelers, Lee Krombholz is also an award-winning custom designer and a bench jeweler specializing in setting, engraving, and finishing techniques.

FACE-TO-FACE WITH BUSINESS EXPERTS
Marlene Richey: Marketing New Designs
10 a.m. to 2 p.m.
Currently an independent consultant specializing in designer jewelry, Marlene Richey is a former gallery owner, a partner in an award-winning design firm, and a professor at the Fashion Institute of Technology and the Maine College of Art.

Andrea Hill: Strategic Planning
2 to 6 p.m.
The owner of StrategyWerx and the former CEO of Rio Grande, Andrea Hill is renowned in the industry for her business acumen and easy way of simplifying complex concepts.

FACE-TO-FACE WITH CAD/CAM EXPERTS
Steve Adler: The Future of CAD/CAM
10 a.m. to 2 p.m.
Steve Adler is the owner of A3DM Technologies and a recognized expert and consultant on additive manufacturing systems.

Charlie Herner: Creating CAD Models
2 to 6 p.m.
Charlie Herner is CAD/CAM director at Green Lake Jewelry Works in Seattle, a custom jewelry retail shop that was named a “Coolest Store in America” by Instore magazine.

FACE-TO-FACE WITH CASTING EXPERTS
J. Tyler Teague: Debunking Casting Myths
10 a.m. to 2 p.m.
The owner of JETT Research, J. Tyler Teague specializes in helping manufacturers restructure and improve their manufacturing processes, and he is considered one of the world’s top precious metal casting consultants.

Teresa Fryé: Avoiding Porosity in Casting
2 to 6 p.m.
Teresa Fryé is the owner of TechForm Advanced Casting Technology, and a renowned specialist in casting platinum group metals. She is the founder of the Portland Jewelry Symposium.
Monday, March 10

DEMO: JEWELRY MAKING 101 (AND BEYOND)
Level Three: Bead and Pavé Setting
11:30 a.m. to 1 p.m.
Presenters: Joel McFadden and Ian Goodchild

FACE-TO-FACE WITH BENCH EXPERTS
Gary Dawson: Repair & Repurposing
10 a.m. to 2 p.m.
Gary Dawson is the owner of Gary Dawson Designs, an internet-based business that was featured as a “Best of the Best” business by Instore magazine.

Joel McFadden: Setting Techniques
2 to 6 p.m.
Joel McFadden is an award-winning designer and the owner of Joel McFadden Designs, a custom design jewelry boutique in Red Bank, New Jersey. A third-generation jeweler, he is one of the most experienced diamond setters in the United States, and has given training courses to other jewelers throughout the country.

FACE-TO-FACE WITH BUSINESS EXPERTS
Ann Arnold: Profitable Production
10 a.m. to 2 p.m.
A 27-year industry veteran with expertise in manufacturing and finance, Ann Arnold is the founder and president of the Arnold Advisory Group LLC, which helps clients increase their efficiency through financial modeling and analysis, time management and organizational strategies, and best business practices.

Matthew Perosi: Online Marketing
10 a.m. to 2 p.m.
Matthew Perosi is the principal of JewelerWebsites.com, which specializes in building or rebuilding jewelry-related websites. He holds not only a B.S. in computer engineering, but also a degree in theatre—which, he says, keeps him grounded and entertaining to his students and customers.

Eugene Brill: Creating a Successful Website
2 to 6 p.m.
Eugene Brill is director of marketing for Jewelry.com. He specializes in internet marketing communications, including search engine optimization, search engine marketing, pay-per-click, and social media, among other areas of expertise.

Cindy Edelstein: Show Me Your Line
2 to 6 p.m.
Get quick merchandising feedback on what’s missing, what works, and what you should add to your lines, from industry expert Cindy Edelstein, president of the Jeweler’s Resource Bureau.

DEMO: PHOTOGRAPHING JEWELRY
3:30 to 5 p.m.
Whether it’s for a full-color print ad or a website gallery, good jewelry images are key to successful marketing. This demonstration by Matthew Perosi will take you through the basics of how to take photos that make your jewelry shine.

FACE-TO-FACE WITH CAD/CAM EXPERTS
Lee Krombholz: Custom Designing with CAD/CAM
10 a.m. to 2 p.m.
As the in-house designer for Cincinnati-based Krombholz Jewelers, Lee Krombholz has mastered the art of using modern CAD/CAM to create timeless designs. He specializes in the Matrix and T-Splines software programs.

Zsombor Antal: CAD/CAM Best Practices
2 to 6 p.m.
Zsombor Antal is the owner of Best Cast Inc., a service bureau specializing in CAD/CAM, casting, and finishing.

FACE-TO-FACE WITH CASTING EXPERTS
Linus Drogs: Casting Practices & Preparation
10 a.m. to 2 p.m.
With over 30 years’ experience in the jewelry industry, Linus Drogs is the owner of Au Enterprises, a short-run, full-service casting house. He is also the former casting and manufacturing consultant to Palladium Alliance International.

Ted Doudak: Overcoming Challenges
10 a.m. to 2 p.m.
Ted Doudak is the founder/CEO of Riva Precision Manufacturing, a turnkey manufacturing organization that offers a range of services, from product development to casting.
MJSA would like to thank the following sponsors (as of presstime) for their continued generosity and support of MJSA Expo New York.

Jewelers Mutual Insurance Company

Jewelers Mutual Insurance Company is the only insurer dedicated solely to serving the jewelry industry in the United States and Canada. Founded in 1913 by a group of Wisconsin jewelers, it remains the trusted insurance advisor and loss prevention expert for nearly 10,000 jewelry businesses, including retailers, wholesalers, manufacturers, custom designers, appraisers, and many other segments of the jewelry industry. The company’s strong financial position is reflected in its 27 consecutive ratings of “A+ Superior” from A.M. Best Company. Visit Jewelers Mutual at MJSA Expo NY in Booth 206, or go to JewelersMutual.com.

Armbrust: Quality Chain and Jewelry Manufacturer Since 1920

Light and luxurious, beautifully supple—our 18KT hollow gold chains are everything but expensive! There’s nothing more real than karat gold, and nothing more affordable than this special product. Comfortable to wear—reasonably priced! In addition to 18KT hollow gold chain, we manufacture solid bronze, brass, .925, gold-filled, 10KT, 14KT and 18KT. To learn more, visit us at MJSA EXPO Booth #325/327 or call 1-866-276-2468.

Best Cast: Committed to Excellence

From CAD design all the way to finishing, you can count on Best Cast to provide you with an ISO 9001 Certified quality product. Just send us a sketch or an image and we’ll create a finished jewelry item for you in just 8 days. Our quality is obtained as a result of more than 14 years of research to improving our castings; cutting edge technology; and an extremely dedicated staff. Please call us at 1-201-225-1750 or e-mail cad@best-cast.com. See us at Booth 915.

Precious Metals Melting

Whether you recycle, melt, alloy, refine, process, or cast precious metals, including the Platinum Group Metals, Inductotherm builds the ideal melting system for your application. As the world’s leading manufacturer of induction melting equipment, we offer a complete line of clean and efficient electric induction furnaces and power supplies. This includes our VIP® and VIP-I™ induction power supplies; versatile Mini-Melt® crucible lined furnaces; a wide variety of removable crucible furnaces, and Dura-Line® furnaces for melting large quantities. Contact: INDUCTOTHERM CORP., 1-888-INDUCTO (463-8286) or 1-609-267-9000; sales@inductotherm.com; inductotherm.com. See us at MJSA Expo New York, Booth 1219.
Your Bridge to Small Business Financing

If you’re planning to purchase a new induction casting machine, a laser engraver, the latest CAD/CAM system, or any other large investment, Blue Bridge Financial can help with the financing—right at Expo! If you qualify for credit, you can fill out a one-page form and get approval for up to $75,000, all within the same day. Visit Blue Bridge Financial LLC in MJSA Expo Booth 1703, or contact Michael R. Noville, 716-253-6007, mnoville@bluebridgefinancial.com.

Agliata Insurance Services

If you work with jewelry and precious metals, you need to protect your assets and investments—and Agliata Insurance can help. Partnering with Berkley Asset Protection, Agliata offers coverage specific to jewelry manufacturers, retailers, wholesalers, and designers, including Jewelers Block and Business Coverage. Also, its MJSA NY Safety Group enables members to get up to 20% in savings, plus dividends (which has totaled over $500,000 since the Group’s inception). For more information, contact Delores Agliata at 1-800-859-8950, delores@dagliata.com. See us at Booth 1713.
Adaptive Business Solutions                    Booth 1819
225 Cedar Hill Road, Ste. 200, Marlborough, MA 01752; 1-617-880-9378; admin@adaptivenav.com; adaptivenav.com. Providing jewelry ERP software for the jewelry manufacturing, distribution, and retail industry using the Microsoft Dynamics Nav ERP system.

Win a Masterpiece!

*MJSA Journal* recently invited three designers to participate in its third annual Mystery Box Challenge. The designers had no idea what to expect in their boxes—and just four weeks' time to transform the mystery materials into inspired jewelry pieces.

Now's your chance to see not only what our group of intrepid designers faced, but also what they triumphantly created. In addition to the mystery materials, the final pieces created from them are on display at the MJSA booth (#2122). Be sure to stop by to view the designs—and have a chance to take one home!

The finished pieces are being raffled off during Expo New York. Raffle tickets are available for just $25 each at the MJSA booth—and you can buy a ticket for the specific design you'd like to win. All proceeds will go to the MJSA Education Foundation to support scholarships for jewelry students in accredited U.S. programs.

Don't miss your chance to take home a masterpiece!
